

DBE PYEI Code Club Training

Raspberry Pi
Foundation

Get the skills to lead your own Code Club!

- Master mentorship styles to help young creators develop coding skills through collaboration and self-led learning.
- Learn how to confidently run and structure your own Code Club, building an inclusive and welcoming space for all learners.
- Gain the skills to use Code Club project materials—including hands-on physical computing activities—to teach coding and digital making with impact.

Get started today!
